

MUSICIANS' COTTAGE STUDIO

The Musicians' Cottage Studio is an acoustically designed space featuring a Yamaha Baby Grand piano, a compact production desk with essential recording equipment, and a wall-mounted whiteboard. A movable carpet is also provided, which can be positioned under drum kits or other instruments to prevent movement and reduce reverb from the hardwood floor. The studio offers a quiet and comfortable environment for composition and music production.

EQUIPMENT PROVIDED

Piano: Yamaha Baby Grand piano and stool

Production desk: 120cm (W) x 60cm (D), second tier for speakers

Mixing console: Yamaha MG10XU
